# Holidays in Mangold Resort, Excursions, Adventure and Trips

Dear visitor of Mangold Resort,

We are pleased to learn about your interest to think about spending your holidays in Mangold Resort.

All Mangold **Resort-Team** would be very much pleased to welcome you here in our small Paradise and to have the chance to show you and bring closer to you this wonderful, natural country consisting of in total 7.107 islands.

In order to give you an idea what kind of excursions, adventure and trips can be foreseen when spending holidays in Mangold Resort, please find in the coming slides our list of possible tours.

Coming to the Philippines, heading to Mangold Resort, experiencing all that is definitely quite a different holiday, in the middle of the nature. Time to Enjoy, Relax, Recharge.

When deciding to spend holidays here in Asia, especially in the Philippines, plus finally in a very remote place like Mangold Resort, we strongly advise all coming guests to think it over thoroughly. Things here in this country are still quite different to what we have in developed countries like in Europe or USA. Coming visitors must be ready for changes, ready to accept many different, still unknown things.

# Holidays in Mangold Resort, Excursions, Adventure and Trips

Please remember: Mangold Resort is in the middle of the jungle, so visitors who wish to experience such kind of holidays have to be ready to adapt

Those foreign visitors who have visited Mangold Resort so far, counting them from our inauguration in April 2014 onwards until today, all of them were deeply fascinated. All of them have already come back for the second or third time, resp. have decided to plan a next holiday period here with us in Mangold Resort!

All experiences which our visitors have gained, in a relatively short time are so very fascinating, intensive and instructive, however, sometimes also somewhat shocking. Remember that Mangold Resort is located in an area where we are surrounded by a high number of real still very poor people.

This poverty, the lifestyle of the people, their shy and reserved mentality, always trying to please foreign people has been touching and inspiring to our visitors in many different ways. Each visitor of Mangold Resort has experienced this “package“ in his individual way, being so very thankful after the stay in Mangold Resort, of having had the chance to experience a completely different way of living.

Judging the worldwide grades of hospitality, we think to judge the Filipino culture as being among the most hospitable countries in the world.

# Holidays in Mangold Resort, Excursions, Adventure and Trips

Therefore, especially when starting to talk to “Filipino Newcomers“ we prefer – right from the beginning – to be very open and to indicate all such above mentioned things.

Mangold Resort is a wonderful, lovely and remote place, a small Family Resort in the middle of the jungle where there is no tourist wide and far.

Our Bungalows are all new, clean, nicely equipped with all facilities which should comply with the needs of foreign visitors.

Regarding the long travel:

Please be reminded that especially after such a long journey, do not plan to undertake too many things, especially in the first days after arrival. Let your body arrive first, but also give some days to your soul and mind to have arrived. The travel to here takes almost one day, so try to “arrive slowly“ and to be prepared to Enjoy, Relax, Recharge first.

We like to point out this, having made many experiences so far. Many visitors arriving here have already a kind of full schedule to do this and that, the maximum during the available days to come. This is definitely not adviseable.

# Holidays in Mangold Resort, Excursions, Adventure and Trips

Those type of visitors sometimes overestimate their power; the journey to here is not like just flying to France , Italy or any closeby country. Arriving visitors in Mangold Resort must first give some time to rest for body and mind, prior to any action.

Finally, the pace of action is not needed; you are on holidays not in a race, Last not least, many visitors have underestimated the jetlag which can take a couple of days until your constitution is fully recovered.

We inform you about all that, based on our various experiences we have made meanwhile.

In many cases, visitors who have come to Mangold Resort having a list of excursions and travels which they would like to do. However, when having arrived in Mangold Resort, having seen our wonderful natural surroundings, having experienced our nice four pools, having met our staff, and getting spoiled by many other pleasantness and amenities, simply feeling “at home“, then their list of planned excursions is getting less.

However, our Team is available to organize any wish, the above mentioned is just our advice based on experiences.

# Holidays in Mangold Resort, Excursions, Adventure and Trips

As mentioned: Mangold Resort is far away from tourism, therefore, coming guests who intentionally wish to experience the real different holiday, find best conditions here in our small paradise to rebound from the daily hectic and stress which you have to face in your habitual lives in your country.

Also, in a very short time you will feel as being part of our family, *The Mangold Resort Family*.

Coming to the Excursions Adventure and Trips.

Mangold Resort Team usually is accompanying our guests at least with two to five persons, depending on the event. Especially when going to the beaches (around 30 min to one hour away from Mangold Resort), or to the jungle (in front of our door), our Team members are together with our visitors.

The costs for such kind of trips depend on the number of participants.
